

# The UMI-Sci-Ed Platform

## WHO is the Platform for?

- Teachers, educators and youth-workers
- Students and learners
- Teaching institutions, administrators and decision makers in education
- Researchers, stakeholders and actors in education and learning methods and systems
- Companies or individual professionals active in UMI technologies
- Career consultants and youth advisors

... are all welcome to the Communities of Practice (CoPs) that are developed within the context of the project and take shape on the Platform.

... are encouraged to utilize the resources, groups and projects developed within UMI-Sci-Ed and shared on the Platform

... are asked to build on the existing knowledge and share their ideas, projects and approaches

## WHAT will you find on the platform?

You can find projects and results developed by participating students, research results on educational approaches and methodologies, tools for information extraction, management and diffusion of the produced knowledge.

You can find resources such as Communities of Practice with fora, career advice, peer learning opportunities...

... and much more!

Simply **REGISTER** and **PARTICIPATE** in forming innovative learning that boosts creative thinking, new knowledge application, effective learning and raising young people's motivation in STEM education and careers.

Find the Platform here: <http://umi-sci-ed.cti.gr/umiscied>
